

"It works faster and better. Period."

— Bob Traynor

HONEYCREST FARMS: The Traynor Family
Spring Valley, Wisconsin
Milking Herd: 120 Reg. Holsteins
BAA 106.5; RHA 25,378m 890f 717p (2x)
SCC Below 200,000

Bob Traynor and his Ex-90 Honeycrest Outs Thriller-ET with a 4-10 365-day record of 38,560 lbs of milk, 3.9% 1495 lbs fat, and 2.8% 1082 lbs protein.

"Using Udder Comfort™ more and more consistently over the past 4 years plays a big role in our quality management," says Bob Traynor.

He and his brothers and nephew, and their wives, operate Honeycrest Farms: Home to 120 top-pedigreed milking animals and young stock from well known Holstein cow families like the 'Anything But Famous Kaythryns.'

"I love Udder Comfort for our prefresh two-year-olds. We run them in the parlor and apply Udder Comfort to soften and soothe. They have an easier transition from prefresh to fresh. They milk out better, have less stress, and are nicer to work with after calving.

"We've tried other products, but we stick with Udder Comfort. It works faster and better. Period. It pays to be proactive with Udder Comfort."

UDDER COMFORT™

Quality Udders Make Quality Milk

**Keep the milk in
the system**

uddercomfort.com

For external application to the udder only after milking, as an essential component of udder management. Always wash and dry teats thoroughly before milking.
